## Summary

I am a passionate and motivated engineering student specializing in Artificial Intelligence and Machine Learning. With a strong foundation in technical and analytical skills, I strive to apply my knowledge to solve real-world challenges and drive AI innovations. I am dedicated to continuous learning and excel in collaborative problem-solving environments.

## Education

**Bachelor of Engineering | Artificial Intelligence & Machine Learning** **2026**

Government Engineering College, Challakere – VTU Belagavi

**CGPA:** 8.02

**Pre-University Course (PUC) | Science** **2022**

*BGS PU College, Ramanagara | 2022*

**Percentage:** 86.6%

**SSLC**

***Sri Shivaganga Public School, Ramanagara*** **2020**

**Percentage:** 89.6%

## Technical Skills

- **Programming Languages:** Python, C, C++, Java, JavaScript
- **Artificial Intelligence & Machine Learning:** Machine Learning, Deep Learning, TensorFlow, PyTorch
- **Web Development:** HTML, CSS, Node.js, React.js, Django
- **Databases:** MySQL, SQL
- **Tools:** Git, Jupyter, VS Code

## Projects

✓ **Smart Irrigation System (Mini Project)**

- Developed an advanced irrigation system that optimizes water usage for agricultural, residential, and commercial landscapes.

- Utilized sensors, weather forecasts, and automation to enhance efficiency.
- **Tools/Tech:** Arduino IDE, Arduino UNO, Embedded Systems

✓ **Generative AI Chatbot**

- Built and deployed an interactive chatbot using Generative AI on Google Colab for real-time user interaction.
- **Live Demo:** [https://abhichatbotai.ccbp.tech/]
- **Tools/Tech:** Python, Google Colab, NLP, Generative AI

✓ **Teacher World (Major Project)**

- Designed and developed a web platform that helps teachers find job opportunities based on their qualifications without traveling.
- Key features include college listings, job postings, and study material management.
- **Tools/Tech:** HTML, CSS, JavaScript, Django (Python), MySQL, MongoDB

✓ **Disease Detection & Image Recognition**

- Implemented ML algorithms for disease prediction and image recognition tasks.
- Worked on data preprocessing, model training, and evaluation to improve accuracy.
- **Tools/Tech:** Python, TensorFlow, scikit-learn, OpenCV, Pandas, NumPy

## Experience / Internships

---

✓ **Web Development Intern | *Vault of Codes* | *3 Months***

- Worked on building and styling responsive web pages using HTML, CSS, JavaScript.

✓ **Bootcamp Participant | *DevTown***

- Hands-on experience in SQL Injection, Image Recognition, Node.js, Disease Prediction.

## Certifications

---

- Full-Stack Web Development – *Udemy*
- GenAI Powered Data Analytics Job Simulation – *TATA-Forge*
- Foundations of Cybersecurity – *Coursera*

## Achievements

---

- **College AI Club Member**
  Member of College AI Club – Organized workshops and tech talks

## Strengths

Problem Solving | Communication | Leadership | Team & Project Management

## Languages

Kannada | English | Hindi
